## LABEL OPTIONS

We offer various label options that can save you money, make your product stand out, or just provide information that isn't available from other label printers. Labels can be any shape and can contain internal cutouts and clear windows if needed. Serial numbers can be printed right on your labels saving the time and money associated with "adding" them on a separate label. Barcodes can be included for any required data using any of the common barcode formats. Finally, "Mail Merge" type variable data can be used to print unique labels in a common label layout. Here's our Label Options summary:

- Any Size and Shape
- Internal Cut-Outs
- Clear Windows
- Serial Numbering
- Barcodes
- "Mail Merge" type Variable Data
